The Steel Shop - Builds in Safety

Leading industrial turnkey contractor completes multiple projects for a local auto equipment supplier.

Auburn Hills, MI – The Steel Shop, a turnkey design and build company specializing in steel fabrication – has completed two construction projects for Esys Engineered Systems in Auburn Hills, MI.

The company's in-house engineers designed and fabricated special stainless steel auto testing equipment stands for testing automated machinery controls. In addition, they fabricated a screened safety enclosure and platform surrounding a robot assembly area being built for General Motors.

The Steel Shop maintains an in-house staff of quality and dedicated Professional Licensed Engineers, Certified Welders and a fully staffed and equipped fabrication shop that includes steel sheers, press brakes, pipe benders, and more. As a turnkey supplier, the company controls all aspects of the construction process from the anchor bolts up.

The Steel Shop has offices located in Michigan, Alabama, and Kentucky, enabling them to serve clients with a continuity of service regardless of where new business expansions might take them within the continental United States.
